

[Untitled remarks in connection with a pamphlet  
entitled "*Calcul des pensions dans les Sociétés de  
prévoyance*" by M. Didion]\*

Mr. Jules Bienaymé

*Comptes Rendus Acad. Sci.*, Paris, **60**, p. 415.

**Mr. Bienaymé** offers to the Academy, in the name of the author, Mr. *Didion*, the general, a brochure on the *Calcul des pensions dans les Sociétés de prévoyance*.

"This is, said Mr. Bienaymé, a work that all Societies of this kind could consult with fruit. Unhappily the persons who direct these establishments so worthy of interest have sometimes too neglected the indications of science, and this negligence has had some grave consequences that it is important to see not be renewed. The works as the one of Mr. Didion, the general, will contribute to this result by clarifying the minds of the associates, of the founders, and of the public which is interested in their success."
